- Problem-Solving
- Time Management
- Teamwork
- Communication

LANGUAGE

- English
- Hindi
- Gujarati

PROFESSIONAL SUMMARY

I am a proactive Frontend Developer with a strong expertise in HTML5, CSS3, JavaScript, and React.js. I specialize in creating responsive and user-friendly web applications. Throughout my career, I have successfully delivered various projects, particularly in ecommerce, and have consistently worked to enhance user engagement through innovative solutions.

PROJECTS

1. DOCTOR-WEBSITE

- Technologies Used: HTML, CSS, Bootstrap

A doctor's clinic to improve patient engagement. Built sections for doctor's profile, services, and resume using Bootstrap. Customized the UI with CSS for a professional look and integrated a contact form for appointments.

2.E-Commarce-Website

- Technologies Used: HTML, CSS, Bootstrap , JavaScript

Developed a e-commerce platform with dynamic product listings, shopping cart functionality, Login-Singup functionality and interactive UI. Implemented Bootstrap and JavaScript for product filtering, cart updates, and user interactions. Enhanced the site with custom CSS for branding and animations.

3.To-do-App

- Technologies Used: HTML, CSS, Bootstrap , JavaScript , React

Developed a responsive, single-page to-do application with React, enabling users to add, edit, delete, and mark tasks as complete. Utilized React's state management for dynamic updates and Bootstrap for a mobile-first, user-friendly interface. Implemented features like task filtering, persistent local storage, and intuitive UI enhancements with custom CSS for a clean design.
